# Kindergarten Orientation Program

## For children commencing school in 2012

To support your child and family at this very exciting time, Pambula Public School has organised a range of activities designed to assist you as you prepare your child for 'Big School'.

We firmly believe that the establishment of a positive relationship between home and school should be developed as early as possible. It is our endeavour to not only welcome your child to Pambula Public School, but to also welcome you to our school family.

As you browse through the orientation program, you will notice a number of opportunities that will allow you to become informed of school life, to seek answers to questions, introduce your child to class, meet key personnel and mix with other parents in a relaxed, informal setting.

Mark Thomson,  
Principal

Thursday 20th October 2011
